PROFESSIONAL SUMMARY

Frontend Developer with 5+ years of experience building production React/Next.js applications. Specialized in performant, type-safe codebases using TypeScript, Tailwind, and modern tooling. Proven track record shipping full-stack features and admin portals for startups and freelance clients.

EXPERIENCE

Software Engineer – Frontend

2025 – Present

Asterdio | Lalitpur, Nepal

- Lead frontend development for Auto24, a fast-growing African second-hand car marketplace – maintaining 6+ parallel codebases (legacy admin, redesigned admin, Next.js consumer site, internal tools)
- Currently building the new internal ERP frontend with complex, real-time GraphQL dashboards
- Designed and maintain the shared component library (Shadcn/UI + Tailwind) now used across all Auto24 and ERP projects
- Drive GraphQL performance and caching strategy with Apollo Client in Next.js App Router for auctions, bidding, and ERP modules

Frontend Developer (React/Next.js)

2021 – 2025

Code Himalaya | Lalitpur, Nepal

- Led architecture and delivery of high-traffic internal admin portals serving 1000+ daily active users
- Established team-wide standards for reusable components, TypeScript usage, and code quality that are still followed today
- Mentored 4 junior and mid-level developers, directly shaping current team practices
- Delivered consistent performance gains through code splitting, lazy loading, memoization, and large-scale refactoring

Freelance Web Developer

2020 – Present

Various Clients

- Delivered 10+ production Next.js projects ranging from full-stack tourism booking platforms to blockchain-integrated music SaaS
- Built complete solutions using Next.js App Router, Prisma, PostgreSQL, NextAuth, and AWS S3
- Translated complex Figma designs into responsive, animation-rich interfaces with Tailwind, GSAP, and Framer Motion
- Managed the full project lifecycle – from initial client discussions through deployment and post-launch support
